11 Burton Ave, Woodmere, NY 11598

EDUCATION

Queens College, *2015 - 2019*
Bachelor of Arts in Computer Science
Freshman Honors
Member of Queens College ACM Chapter

EMPLOYMENT

Software Engineer Intern
Start Right Ventures, New York, NY
Aug 2017 – Jan 2018
Worked with CTO to build live streaming platform for startup companies to meet and pitch to investors nationally.
Responsibilities included:
- Implemented WebRTC, Node.js, HTML/CSS, to build said streaming platform

Web Development Intern
Discount Surgical, Brooklyn, NY
June 2016 – Aug 2016
I worked for an online surgical stocking company where I shadowed the company's Senior Web Developer. I learned the basics of developing and maintaining a large eCommerce website, SEO basics, and how to work with large data sets.
Responsibilities included:
- Updating website with new pages/products
- Used Tableau to generate sales reports and see customer buying trends

Customer Support/IT Support
Unzer Pharmacy, Williamsburg, NY
June 2015 – September 2015
I spent a summer working for Unzer Pharmacy as an overall "Tech Guy". I spent most of my time there transitioning their business from an over the phone or mail order business to an internet-based business. Aside from that I acted as an IT guy in the office; I helped co-workers fix software issues, troubleshooted printers/computer hardware, and anything else they needed help with.

Technologies I am proficient in:
Java, C++, JavaScript, Git, SQL, HTML, CSS
